

- humans effect system  
 - ALL actions have consequences  
 - can + or- effect the system

\* KEY \*

BASE Food Chain

plankton eaten by small fish

\* BY CATCH

Fish  
 from here into sea floor  
 Customed animals  
 to be dangerous

Small fish eaten by seals

thought to be eating all fish

Small fish eaten by large fish

\* Killed of BIC through  
 to more economic  
 when possibly  
 saved the  
 capture

\* Importer  
 of System

\* Sign of healthy  
 ecosystem

\* hunting  
 due to  
 misperceptions

Small fish eaten by sharks

large fish eaten by sharks

Seals eaten by sharks

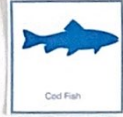

thought to be eating all fish

large fish eaten by seals

occasionally  
 passed  
 upon by orcas

large fish eaten by orcas

(excluding from  
 food chain  
 - small fish - juv  
 - large fish - adult)

Marine Mammal  
 Protection Act

\* Come to understand  
 delicate  
 balance  
 of ecosystem

\* economically  
 dependent

Food Chain  
 Economic  
 Conservation

\* ALL CONNECT  
 AND DEPENDENT \*

Costs build up off ec

without first prevent people to CC

Whole ecosystem

debt farm

Charter Fish

Seal thing

lookin less fish

fish

Seal death
